MEET THE PRINCIPALS

THREE NEW SUPPLIERS

'Rio Natural's Stevia sweetener, Alpine Foods' frozen infused cranberries, and Z Foods' premium dried fruits are now available.

STEVIA SWEETENER A NATURAL

Rio Natural's *RioSweet* offers a new, healthier approach to the **calorie-free sweetener** market.

RioSweet is 100% natural, using organically-grown Stevia rebaudiana plants. Like known sweeteners in the blue and pink packets, **Stevia is calorie-free. The large distinction is that Stevia is a plant-based sweetener, not an artificial one.**

RioSweet Stevia sweetener is useful in drinks, bottled drinks, and many more applications. Unlike artificial sweeteners, Stevia does not break down in heat, making it an excellent choice for cooking and baking.

The calorie free and natural qualities make Stevia extract a health foods ideal.

And *RioSweet* Reb-A 97% Stevia extract is approximately 400 times sweeter than sugar. Discover more about this important product by contacting Tisdale.
